

CUSTOM CABS

*Simple Solutions.
Seamless Integration.*

YOUR TRUSTED RESOURCE

GS Global Resources is trusted by OEMs who demand a competitive advantage for every solution. From system and component design to production and market support, we help OEMs interpret, adapt, and adopt technology. Solving OEM challenges at the intersection of fluid power and electronic control, our customers profit from our continuous technology and innovation transfer.

PERFORMANCE

Access to the foremost machine performance resource trusted by OEMs ensuring a competitive advantage from every solution.

PROFITABILITY

Continuous technology and innovation transfer through a single point of accountability provides OEMs unmatched value.

PRAGMATIC

Problem solvers, renowned by our customers, we relentlessly pursue and develop fresh ideas to benefit OEMs.

TALENT

Rare technical talent, scalability, and flexibility, coupled with incomparable ability to understand and overcome OEM challenges.

CONFIDENCE

Support to help OEMs best integrate and utilize technology from system and component design to production and market support.

VALUE

A rare combination of speed to market, improved safety, higher productivity, greater predictability and unbeatable efficiency.

COMMITMENT

A comprehensive resource where the complex simplifies. Where peace of mind and mutual respect grow relationships. Where competitive advantage and machine performance improve—every time.

YOUR PARTNER FROM BEGINNING TO END

Your machine is designed for a specific purpose, with specific operator needs in mind. The best way to ensure your machine goals are maintained in every aspect of a cab is to work with a single partner who not only has a full understanding of your operator's primary controls, as well as the machine's environmental and safety concerns, but who also has the knowledge and experience to design, create, and fully test your custom cab. And at GS Global Resources, we create cabs to help you achieve total machine performance

Our subsidiary, ADC Equipment Innovations is a certified ROPS/FOPS global compliance partner and are industry leaders in weldments, finite element analysis (FEA), and wet painting & powder coating. With our combined expertise, we can create a solid foundation for your cab, designed specifically for your needs.

Because of our status as a valued distributor for industry leading hydraulics and controls, we have access to and familiarity with the parts needed to create custom features for your cab including seat & armrest assemblies, specialty windows, programmable displays & switch panels, integrated IQAN control systems, and more.

We understand the primary goals for every cab are safety, productivity, and experience. With our broad range of custom cab solutions, we have the expertise and ability to optimize ergonomics, implement application-specific features, and integrate innovative safety features, giving operators both peace of mind and comfort you can't find elsewhere.

GS Global Resources is the foremost machine performance resource trusted by OEMs who demand competitive advantage from every solution.

WHAT WORKS FOR YOU

Base, Single Person Cabs

For when you just need something basic, but reliable to get the job done.

- With or without ROPS/FOPS certifications
 - Cab pictured is FOPS certified
- Custom glass options
- Custom seat & armrest integration
- Fully integrated HVAC system
 - With or without CAN communication
- Simplified machine installation

Specialty, Single Person Cabs

Designed for your machine's application and environment.

- With or without ROPS/FOPS certifications
 - Cab pictured is not ROPS/FOPS certified
- Custom glass options
 - Including fully wrapped windshield for panoramic view and sliding door windows
- Custom seat & armrest integration
- Application specific features
 - Including high visibility and cab tilting
- Hydraulic and electronic control options
- Simplified machine installation

Large, Multi-Person Cabs

Create an ergonomic environment with industry leading electronics to give operators total control.

- With or without ROPS/FOPS certifications
 - Cab pictured is not ROPS/FOP certified
- Specialty glass options
 - Including UV and safety protection
- Customizable consoles
 - Plastic, aluminum, steel & fiberglass consoles available
- Fully integrated HVAC system
 - With or without CAN communication
- Additional training seat

Complex, Multi-Person Cabs

Combine function and features, giving operators a little something extra.

- With or without ROPS/FOPS certifications
 - Cab pictured is ROPS/FOPS certified
- Custom glass options
 - Including UV and safety protection
- Customizable plastic, aluminum, steel & fiberglass consoles available
- Custom seat & armrest integration
- Fully integrated HVAC system
 - With or without CAN communication
- Additional training seat
- Advanced amenities
 - Including refrigerator & microwave
- Simplified machine installation

DESIGNED FOR YOUR MACHINE

The Type of Cab You Need, With the Features Your Operators Want

From industry specific safety concerns, to application based control functionality. Every aspect of your cab is created for with your needs and desires kept top of mind. That could mean including advanced amenities, like a small refrigerator, to give operators more creature comfort. Or a dual HVAC system to compensate for a machine's harsh environment. Or even fitting a large amount of advanced controls into an extremely compact cab. At GS Global Resources, we're problem solvers who take your top cab priorities, and figure out the best way to make it work for your machine.

Display & Switch Panels Assemblies

Being strategic with how you convey information & organize primary controls sets you apart from other OEMs. Controls must be organized in a way that both prioritizes ergonomics and keeps those with the highest usage easily accessible.

HVAC

Operator comfort is a key factor of overall productivity. Whether you just need to fit a high quality system into a compact cab, or have the space for a complex dual HVAC system, we can design the right solution for your machine's environment.

Foam & Protectant

Essential for insulation, noise control, and heat rejection, foam, rhinolining and other interior protectant can vary based on the machine's application and environment.

Seat & Armrest Assemblies

As the primary touchpoint for operators, seats much not only have optimal ergonomics, but need armrests and consoles that integrate programmable displays, custom joysticks, & other controls to give operators operating status and machine control at a glance.

Windows

Greatly dependent on machine environment and application, your cab's windows can have different safety certifications, custom shapes, sealing, and specialty tinting and coating.

Custom Plastics

If you'd like a more modern, automotive style finish for your cab's interior, we can design and create custom vacuum molded pieces for your armrests, consoles, and more. Utilizing 3D printing technology, we quickly get you a true-to-size prototype, so you can experience your design and move it into production quickly.

ABOUT GS GLOBAL RESOURCES

GS Global Resources is the foremost machine performance resource. We are trusted by the world's most recognizable OEMs who demand a competitive advantage from every solution. Our integrated application solutions perform for the life of the machine, and for the lives of the people who touch it.

From system and component design to production and market support, GS Global Resources helps OEMs interpret, adapt, and adopt technology.

Our leading engineering minds in hydraulic, electronic, mechanical and software applications simplify the complex. We use innovative & reliable technologies to speed solutions to market. Whether reacting to market forces or changing markets altogether, GS Global Resources is essential to achieving total machine performance.
